

EKATO ASAP

American Standard Agitator Program

Introducing EKATO's Agitator Program, specifically designed for the U.S. market.

About Our Program:

Due to our carefully selected parameters, the EKATO HWL agitators offer the shortest possible lead times. As a result of our innovative agitator design, reliability, and robustness, your maintenance costs will be greatly reduced.

The lift-and-swivel device minimizes costly downtimes

Reliability (Over 200K installations worldwide)

Proudly assembled in the USA with German engineering

Industry competitive lead times of 18 – 22 weeks DDP
